ATLAS simplifies satellite communications. Their global ground network of antennas provide space-based data and communications solutions for commercial, government, and academic missions alike. The SatCom industry benefits from ATLAS's revolutionary approach, which offers better, more affordable satellite communications to mission operators.

KEY ACCOMPLISHMENTS

- Relocated headquarters in 2017 from Southern CA to Traverse City, MI due to local investment
- Growing region's space industry reputation by holding annual MI Space Forum
- Created network of 14 ground-based satellite antennas around the globe with 13 more upcoming
- Ranked No. 102 on Inc. Magazine's annual list of the nation's 5000 fastest-growing private companies and as No. 15 of the nation's fastest growing software companies
- Won multiple SBIR Phase II funding awards
- Selected for the annual SBDC client showcase in DC
- 30 employees
- \$17 million in investment since 2017
- \$3.8 million in revenues for 2019

"If it weren't for the MI-SBDC Tech Team we would not have captured our initial funding as we did. I am a lifelong fan."

Mike Carey , Founder/Chief Strategy Officer and former USAF Major General
